

## REASONS FOR GETTING THE COVID VACCINE

- ◆ We now have the chance to return to the people and places we love. Let's get our lives back again.
- ◆ Your loved ones need you. Get the COVID-19 vaccine to be sure you can be there for them,

and so you can protect them.

- ◆ Doctors and nurses have decided to get the vaccine. Now they recommend you do, too. Talk to your doctor to find out more about why it's right for you.
- ◆ The COVID-19 vaccine was tested with 70,000 people. Now more than 157 million people have been vaccinated in the US alone. You can feel confident that it's safe and effective.
